About Me

Actively working in cybersecurity, network security, and DevOps using various security tools, Practicing penetration testing and vulnerability analysis by regularly solving CTF machines. Gained hands-on experience in physical network installation, cabling, and device configuration in academic and internship environments. Possess practical knowledge in Docker, DevOps workflows, and system administration.

Education

- | | | |
|------------|--|---|
| BSc | Dokuz Eylul University , Computer Science <ul style="list-style-type: none">GPA: 2.83/4.0 | Izmir, Turkey
Sep 2021 – 2026 |
| BA | Anadolu University , Visual Communication Design <ul style="list-style-type: none">GPA: 2.7/4.0 | Distance Learning
Sep 2023 – Present |

Experience

- | | |
|--|--------------------------------------|
| Sisbim Technology and Software Inc. , Cyber Security Intern <ul style="list-style-type: none">Actively participated in network-based vulnerability scanning and penetration testing processes using Nmap, Wireshark, and Metasploit.Conducted web application security testing with Burp Suite, identifying vulnerabilities such as SQL injection and XSS.Involved in Active Directory installation and configuration processes, implementing user management and group policies. | Izmir, Turkey
Jul 2025 – Sep 2025 |
| Dokuz Eylul University , Assistant Network Technician (IT) <ul style="list-style-type: none">Configured basic settings on Cisco switches and routers, managing VLAN and port configurations.Identified and resolved network connectivity issues efficiently while handling user support requests. | Izmir, Turkey
Mar 2025 – Jun 2025 |
| BeeTekno , Full-Stack Web Developer <ul style="list-style-type: none">Designed and integrated RESTful APIs, managing seamless data flow between the frontend and backend.Containerized applications using Docker to optimize development and deployment workflows. | Izmir, Turkey
Jul 2024 – Oct 2024 |

Skills

- Cyber Security:** Nmap, Wireshark, Burp Suite, Metasploit, SIEM, Active Directory, Penetration Testing, Vulnerability Assessment
- Networking & IT:** Cisco Router/Switch Configuration, VLAN, Structured Cabling, TCP/IP, DNS, DHCP
- Programming & DevOps:** Python, Bash, C, JavaScript, TypeScript, Node.js, HTML/CSS, Docker, Git, Linux, REST APIs, GitHub Actions CI/CD, AWS
- Target Certifications:** OSCP, CCNA, eJPT (In progress), IELTS (Upcoming)

Languages

- Turkish:** Native
- English:** Advanced (C1) – Preparing for IELTS
- German:** Intermediate (B1) – Holds TELC A2 certificate
- Spanish:** Elementary - Intermediate (B1)

Extracurricular Activities

- DEU Computer Science Community (BBT):** Took an active role in organizing various events and contributing to the department's development.
- DEU Google Developer Student Club (GDSC):** Regularly participated in organized technical trainings and community events.
- DEU Artificial Intelligence Society:** Supported community initiatives as an associate member.
